Philip Chan

Analyst, Organization for Economic Co-operation and Development (OECD)

As part of a multi-year international project investigating the barriers to and drivers of rural innovation, the Organization for Economic Cooperation and Development (OECD) is conducting a series of visits to select rural communities in participating countries. Supported by the Canadian Northern Economic Development Agency, and with an aim to dive deep into and learn from Northern circumstances and experiences, the OECD team will conduct this special interactive session to explore what makes the North, and in particular Inuvik, unique. Specifically, how Inuvik has made progress in supporting and enabling rural innovation and entrepreneurship and how it imagines its future ...
